

# FUNCAM - Project Structure (One Page)

## Structure

FUNCAM

■■■ apps

■ ■■■ web (Next.js 15 Frontend)

■ ■ ■■■ app (auth, main, layout, globals)

■ ■ ■■■ components (video, chat, matching, ui, safety, profile)

■ ■ ■■■ hooks (useWebRTC, useSocket, useMedia)

■ ■ ■■■ lib

■ ■ ■■■ types

■ ■■■ server (Node.js + Socket.IO)

■ ■■■ src (socket, models, routes, middleware, utils)

■ ■■■ package.json

■■■ docker-compose.yml

■■■ package.json

■■■ .env.example

## Tech Stack

Frontend: Next.js 15 + TypeScript

Backend: Node.js + Express

Real-Time: Socket.IO

Video: WebRTC

Database: MongoDB

Cache: Redis

Authentication: JWT

Containerization: Docker

## Main Features

- Random Video Chat • Text Chat • Smart Matchmaking • Filters (Gender/Age/Country)
- Camera & Mic Controls • Wallet & Credits • User Profile
- Report & Safety • 18+ Verification • Real-time Communication
